The figures in column 9 are approximate.
The Kachin Hill Tracts figures are estimated and are excluded from the following Tables as there are no data available regarding the religion, &c. of the population concerned.
The 1891 figures are not given by townships. The area synchronously and non-synchronously enumerated at the 1891 census, was far smaller than that so dealt with at the 1901 enumeration and the area estimated was far larger, thus no comparison can be instituted between the two sets of figures.

All records previous to 1899 were destroyed by fire when the court-house at Mōgok was burnt down and no data regarding the area under cultivation during the year ending 31st March 1891, are available. For Momeik State (including the Kodaung) which is temporarily treated as a Township of the Ruby Mines District, the area under cultivation in 1901 cannot be supplied.

* Figures for Tagaung and Thabeikkyin are all approximate.

§ Same as against 1901.
